# Detailed Timeline for Nov 2026 roll-out – relevant for BP activities

## Next steps after August until roll-out 1 November:

- Data Finalization (Skill Foundation team)
- Data Provisioning (Data Management)
- Letter Delivery
- Consent Collection

# Phase 1 – EE data validation

## Resources

- General information on the Skills DNA program, Global Job Profile Modernization and Role menu: [SharePoint](#)
- All related GJP Modernization information 2026 particular to our team will be stored here: [8.3.GJP Modernization 2026](#)
  - P&C BP Info-package: [Info Package for P&C Business Partners April2026 EE Validation.pptx](#)
- Demo on the ETM file: [ETM 2026 DEMO.mp4](#) (*useful, but not exactly reflecting our file structure*)
- GJP and GJA catalog: [default role mapping](#)
- Change narrative slides from GJP Mod 2025 per L1 unit: [L1 unit Mgr enablement decks](#)
- L1 Role Menus: refer to your L1 unit 2026 WF Guidance v2 document
- Employee Validation FAQ document: [EE\\_validation\\_Phase\\_FAQ.docx](#)
- 2025 Mapping guidance on Internal Strategic Consulting: [Mapping Guidance - Internal Strategic Consulting JOB TRACK](#)
- Example deck for business enablement on EE data validation phase (Global Marketing): [GM GJP Nov 2026 LT.pptx](#)

# Phase 1 – EE data validation

## Instructions and tips

- **Scope** of review:
  - **Priority 1 – MANDATORY:** German employees (company code: 0001, 0023, and 0908) and ROW employees on legacy job profiles
  - **Priority 2 - OPTIONAL:** Other RoW corrections.
  - **Priority 3 – FOR INFO ONLY (no Action):** Re-namings
- **Type** of changes:
  - Job profile / job track changes (job title remains as is)
  - Job title / job family changes
  - *Re-namings (for info only)*
- **How to read the ETM file:**
  - **Summary flags:** YES if Raspberry or Indigo section data is DIFFERENT than Green section (current assignment)
  - **Re-namings only** (no other changes proposed) are shown in the Raspberry section only (Indigo section blank)
  - **Raspberry section:** all lines filled in (except those with legacy profiles for which there is no default Active profile defined)
  - **Indigo section:** pre-populated with the 2025 validation results for Germany employees (IF different from proposal in Raspberry section)
- **Total Rewards Guidance:** ROW: same as last year / Germany: as legally required – all under min and pay-mix changes implemented
- Please **finalize** the **validation** with the business and **confirm completion** back to Adriana **by May 7 (Thursday)** preferably
- Files are protected. You don't need to add or edit information, other than selecting new GJP info in the appropriate section (drop-down menus provided)

# Employee Transfer Matrix details

In the Employee Transfer Matrix (ETM), you will find employee's current role, their proposed future role, and a space to suggest any corrections. See a video demo explanation of the file and it's contents [HERE](#)

The file is organized into 5 sections:

- A Summary (columns A-C):** Flags proposed changes from current assignments in either the Raspberry section (Re-namings and default mappings for legacy profiles) OR the Indigo section (Germany 2025 Validation assignments, different than the Raspberry section)

| SUMMARY                       |                          |                          |
|-------------------------------|--------------------------|--------------------------|
| Job Title/Family Change (Y/N) | Job Profile Change (Y/N) | Job Title Renaming (Y/N) |

- B Employee Information (columns D-S):** This is the foundational dataset and includes key details such as employee name, region, management hierarchy, and other core attributes used for this exercise.

| EMPLOYEE INFORMATION |         |               |        |         |              |            |                 |                 |                 |                 |                 |                 |                   |                     |
|----------------------|---------|---------------|--------|---------|--------------|------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|-------------------|---------------------|
| Personnel Number     | User ID | Employee Name | Region | Country | Company Code | Board Area | L1 Manager Name | L2 Manager Name | L3 Manager Name | L4 Manager Name | L5 Manager Name | L6 Manager Name | Direct Manager ID | Direct Manager Name |

- C Employee Assignment (columns T-AH):** This area captures each employee's current job details, including job family, track, profile, grade, and pay-mix information.

| EMPLOYEE ASSIGNMENT |                |               |                 |              |                |                |                  |              |                    |                    |                |                                                |                                  |
|---------------------|----------------|---------------|-----------------|--------------|----------------|----------------|------------------|--------------|--------------------|--------------------|----------------|------------------------------------------------|----------------------------------|
| Job Title ID        | Job Title Name | Job Family ID | Job Family Name | Job Track ID | Job Track Name | Job Profile ID | Job Profile Name | Career Level | Global Grade Level | Global Grade Group | Actual Pay Mix | Global Target Pay-Mix (incl. local deviations) | Bonus Type per job family in GJA |

**Important note:** All compensation-related information are based on employees' actual comp data as of April 8, 2026, and the new GJA structural comp data effective Jan 1, 2026 (?).  
**Employee Exclusions:** Exec profiles, Non HC relevant, Acquisitions employees

# Employee Transfer Matrix details

- D Employee Default Future Assignment (columns AI-AU):** This section outlines the proposed default future role based on the role mapping file. When current mapping is correct according to the Modernized GJP logic, current mapping is shown. If this section is blank, it indicates that no default mapping has been defined.

| EMPLOYEE DEFAULT FUTURE ASSIGNMENT |                                     |                                       |                                         |                                |                                      |                                        |                                          |                                      |                                               |                                                                                 |                                               |
|------------------------------------|-------------------------------------|---------------------------------------|-----------------------------------------|--------------------------------|--------------------------------------|----------------------------------------|------------------------------------------|--------------------------------------|-----------------------------------------------|---------------------------------------------------------------------------------|-----------------------------------------------|
| DEFAULT<br>FUTURE Job<br>Title ID  | DEFAULT<br>FUTURE Job<br>Title Name | DEFAULT<br>FUTURE<br>Job Family<br>ID | DEFAULT<br>FUTURE<br>Job Family<br>Name | DEFAULT<br>FUTURE<br>Job Track | DEFAULT<br>FUTURE<br>Job Track<br>ID | DEFAULT<br>FUTURE<br>Job Profile<br>ID | DEFAULT<br>FUTURE<br>Job Profile<br>Name | DEFAULT<br>FUTURE<br>Career<br>Level | DEFAULT<br>FUTURE<br>Global<br>Grade<br>Group | DEFAULT<br>FUTURE<br>Global<br>Target<br>Pay-Mix<br>(incl. local<br>deviations) | DEFAULT<br>FUTURE<br>Bonus<br>Type per<br>GJA |

- E Employee Assignment Correction (columns AV-BI):** Aimed to **propose updates/changes if you don't agree with the Default Future Assignment**. The **orange fields** "Future Job Track" and "Comment" are **editable**, while the remaining fields will **\*automatically populate** once a job track is selected. Section is **prepopulated with the Assignments validated with the Business in 2025 for German employees** (if different from the Raspberry section)

| EMPLOYEE ASSIGNMENT CORRECTION |                       |                      |                        |                  |                     |                       |                         |                     |                           |                                                       |                           |         |
|--------------------------------|-----------------------|----------------------|------------------------|------------------|---------------------|-----------------------|-------------------------|---------------------|---------------------------|-------------------------------------------------------|---------------------------|---------|
| FUTURE Job Title ID            | FUTURE Job Title Name | FUTURE Job Family ID | FUTURE Job Family Name | FUTURE Job Track | FUTURE Job Track ID | FUTURE Job Profile ID | FUTURE Job Profile Name | FUTURE Career Level | FUTURE Global Grade Group | FUTURE Global Target Pay-Mix (incl. local deviations) | FUTURE Bonus Type per GJA | Comment |

\*Only future-proof job tracks can be selected from the dropdown menu. Additionally, if the selected job track does not include a defined career level (such as T3PM or T5PM in some job families), the remaining Indigo section will appear empty.

**Important note:** All information are based on **employees audit report with effective date Nov 1, and pulled on April 8, 2026.**

**Employee Exclusions:** Exec profiles, Non HC relevant, Acquisitions employees

Brazil, France, Austria, Bulgaria & Switzerland) |                                                                                                                         | ✓              |
| Benefits           | Perquisite and/or benefits are determined and executed by country and executed per local legislation and regulation which will guide the process for standard benefits. However, unique or specialized benefits or allowances may need to be reviewed to see what may be grandfathered, adjusted, retained, or removed due to this mapping exercise |                                                                                                                                       |                                                                                                                         |                |

## TR Guideline GJA 2026:

- **For Germany** : Changes according to legal requirements, which means **below min adjustments and pay mix change** will need to be made where needed, **regardless of the job / function**.
- **For RoW** (rest of world) : Guideline to be **same as last time** due to equal treatment of cohorts 2025 and 2026

For TR related questions, please reach out to Chetak Lodaya

# Mapping Guidance | Internal Strategic Consulting JOB TRACK

Role expected to be used ONLY in certain organizations in S&O and oCEO

## Organizations in S&O

- Sarah Schmidt (Corporate Strategy) – role owner
- With GTM Ops: Lars Bastian's org (only resources working on Strategy, not default mapping in change of new teams coming or changing in scope of job); limited resources in the Regions working on Strategy directly with the Regional Presidents
- Within CPIT: Vitali Kasmil's org (resources working on Strategy)
- Selected resources in Jon Platner's org

## Organizations in oCEO

- Within CTO org: Georg Kniese's organization (Corp Dev/M&A)
- Limited resources in Dagmar's team (working on Strategy at CTO level)
